NOTE: Many of www.pennparts.com schematics include changes that were either made by Penn, or errors found and corrected by our parts dept.
SBT Ver. 111607

Design Change Notes:

The original 231-5000SV crosswind gear had a small hole to fit on the housing.
The newer 231-5000SV have a larger hole that sits the 231A-4000CV bearing

SERVICE NOTES: *Caution!*

inner collar. The roller bearings do not stay put in the plastic bearing case without assistance.

Careful not to loose the bearings! If one drops reinstall and pack with Penn blue grease to hold in place until parts are reassembled.
